1. DVR EXHAUST SYSTEM

1.1. GENERALS:

Designed and hand-built by DVR and designed specifically for supermoto, these exhaust are tested on each engine, model to provide the best performance and maximum peak power. It ´s tested by the best racers (Lukas Hollbacher, Petr Vorlíček, Micky Dymond, Tomáš Trávníček, Markus Class, etc.)

The double exhaust system allow to have an higher output air flow, ensuring the exhaust gas to flow out more freely.

In this way, you can get more power compared to the single muffler exhaust system, without exceeding the noise standards in force.

Single exhaust for motocross for the best performance and maximum peak power.

The exhaust tubes are from stainless steel and titanium.
